Independent University of Bangladesh

Subject : Application for changing of 1st major to 2nd major

Dear Sir/Madam,

I am writing to formally request a change of my academic major from Mathematics to Computer Science and Engineering (CSE).

I initially chose Mathematics because of my interest in logical reasoning and problem-solving. However, over time, I have developed a strong passion for computer science, particularly in areas such as programming, software development, and technology-driven innovation. I believe that pursuing a degree in CSE will better align with my career goals and allow me to build practical skills relevant to the modern job market.

Therefore, I kindly request you to consider my application for changing my major to CSE. I would be grateful for your approval and guidance regarding the necessary procedures.

Thank you for your time and consideration.

Yours sincerely,

Farhan Ishrak
